THE ACTIVITY OF THE MUNICIPALITY OF ESKI DZHYMAYA REFLECTED IN THE BULGARIAN NATIONAL REVIVAL PERIODICAL PRESS

lordanka Petkova

In the Renaissance city of Targovishte city municipality was the only public institution holding the educational, cultural and religious life of the oppressed Christian population. It builds churches and schools, ensuring their maintenance, takes important decisions affecting each member. For its activity, can be judged apart from the reserved papers, as well as from a number of articles published in Revival periodical press. Their content reveals the success and problems facing the municipality, the sharp controversy that it leads against the so called „young ones“ for defending the democratic principles on which each community is built and the protection of their views by the so called „old ones“.
